AIR 2213

AIR GEARTM 350

MULTIROTOR DRIVING EQUIPMENT SET

- 4pcs AIR2213 KV920 brushless motors
- 4pcs T9545 plastic self-tightening props (2CW+2CCW)
- 4pcs AIR20A ESC (optional)
- Accessories

4pcs AIR2213 KV920 brushless motors
4pcs T9545 plastic self-tightening props (2CW+2CCW)
4pcs AIR20A ESC
Accessories

Two of the four motors have the laser point on the top of the shaft. Which shows they are CCW thread. It will be much convenient to find the right motor for installation.

1. Ideal to 1200g to 1500g quadcopter
2. Low noise and high-speed response

Integrated prop adapter provides a simple and one-time install
Self-cooling to reduce the operational temperature
The CW & CCW adapter perfectly matches the **T9545** propeller

AIR 20A ESC 3-4S LIPO

Simplified and designed for multi-rotors w/o BEC
Firmware optimized for 600 Hz refresh rate
Ultra-low internal resistance and anti-jamming design
Optimized throttle response
Weight minimized & Structure compact

T9545 Prop

Highly efficient !New material and follows the shape of T-motor CF propeller

Three innovative installation methods suitable for most all motors in the market (Normal, or the no-tool self-locking methods)

Full black bullet holder is for cw thread .

1. MT style installation

2. MN style installation

3. Self-tightening with bullet holder (CW ,CCW)
