

AIR GEARTM 200

MULTIROTOR DRIVING EQUIPMENT SET

• 4pcs AIR2205 KV2000 brushless motors

7

- 4pcs T6535 plastic self-tightening props (2CW+2CCW)
- 4pcs AIR10A ESC

1. Abundant power, and satisfy the requirement of 1000-1200g flight weight.
2. Low noise and high responsive speed.
3. Convenient and quick installation method.
4. Perfect performance with your vehicle.

AIR 2205 2000KV

- 1: Integrated prop adapter, simple structure, no needs for twice installation
- 2: Reduce the operational temperature more easily with U-Power series self-cooling design
- 3: Perfectly match T6536 self-tightening prop.

AIR 10A 2-3S

- 1: Convenient and useful without any unnecessary settings.
- 2: Program optimization. With the updated refresh rate at 600hz .
- 3: Lowest internal resistance and advanced anti-disturbance performance.
- 4: Quicker responsive speed of throttle.
- 5: Lightness in weight and structure.

CW

CCW

T6535 prop

- 1: Highly efficient! New material and follow the shape of T-motor CF propellers.
- 2: Two innovative installation methods suit for most motors in the market.

① no-tool self-locking with CW,CCW bullet holder

② Normal method

TWO WAYS FOR PROP INSTALLATION.

- ① no-tool self-locking with CW,CCW bullet holder
- ② Normal method
