Unmatched Brushless Motor

Each motor is made by the superb technology, more powerful and more durable.

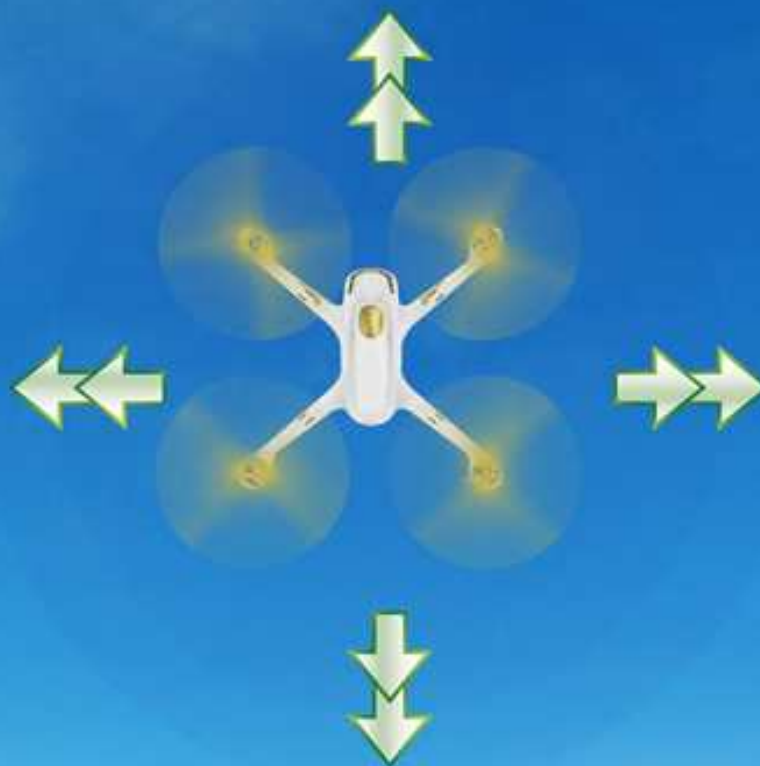

The precise and self-tightening propellers help in a better and safer flight.

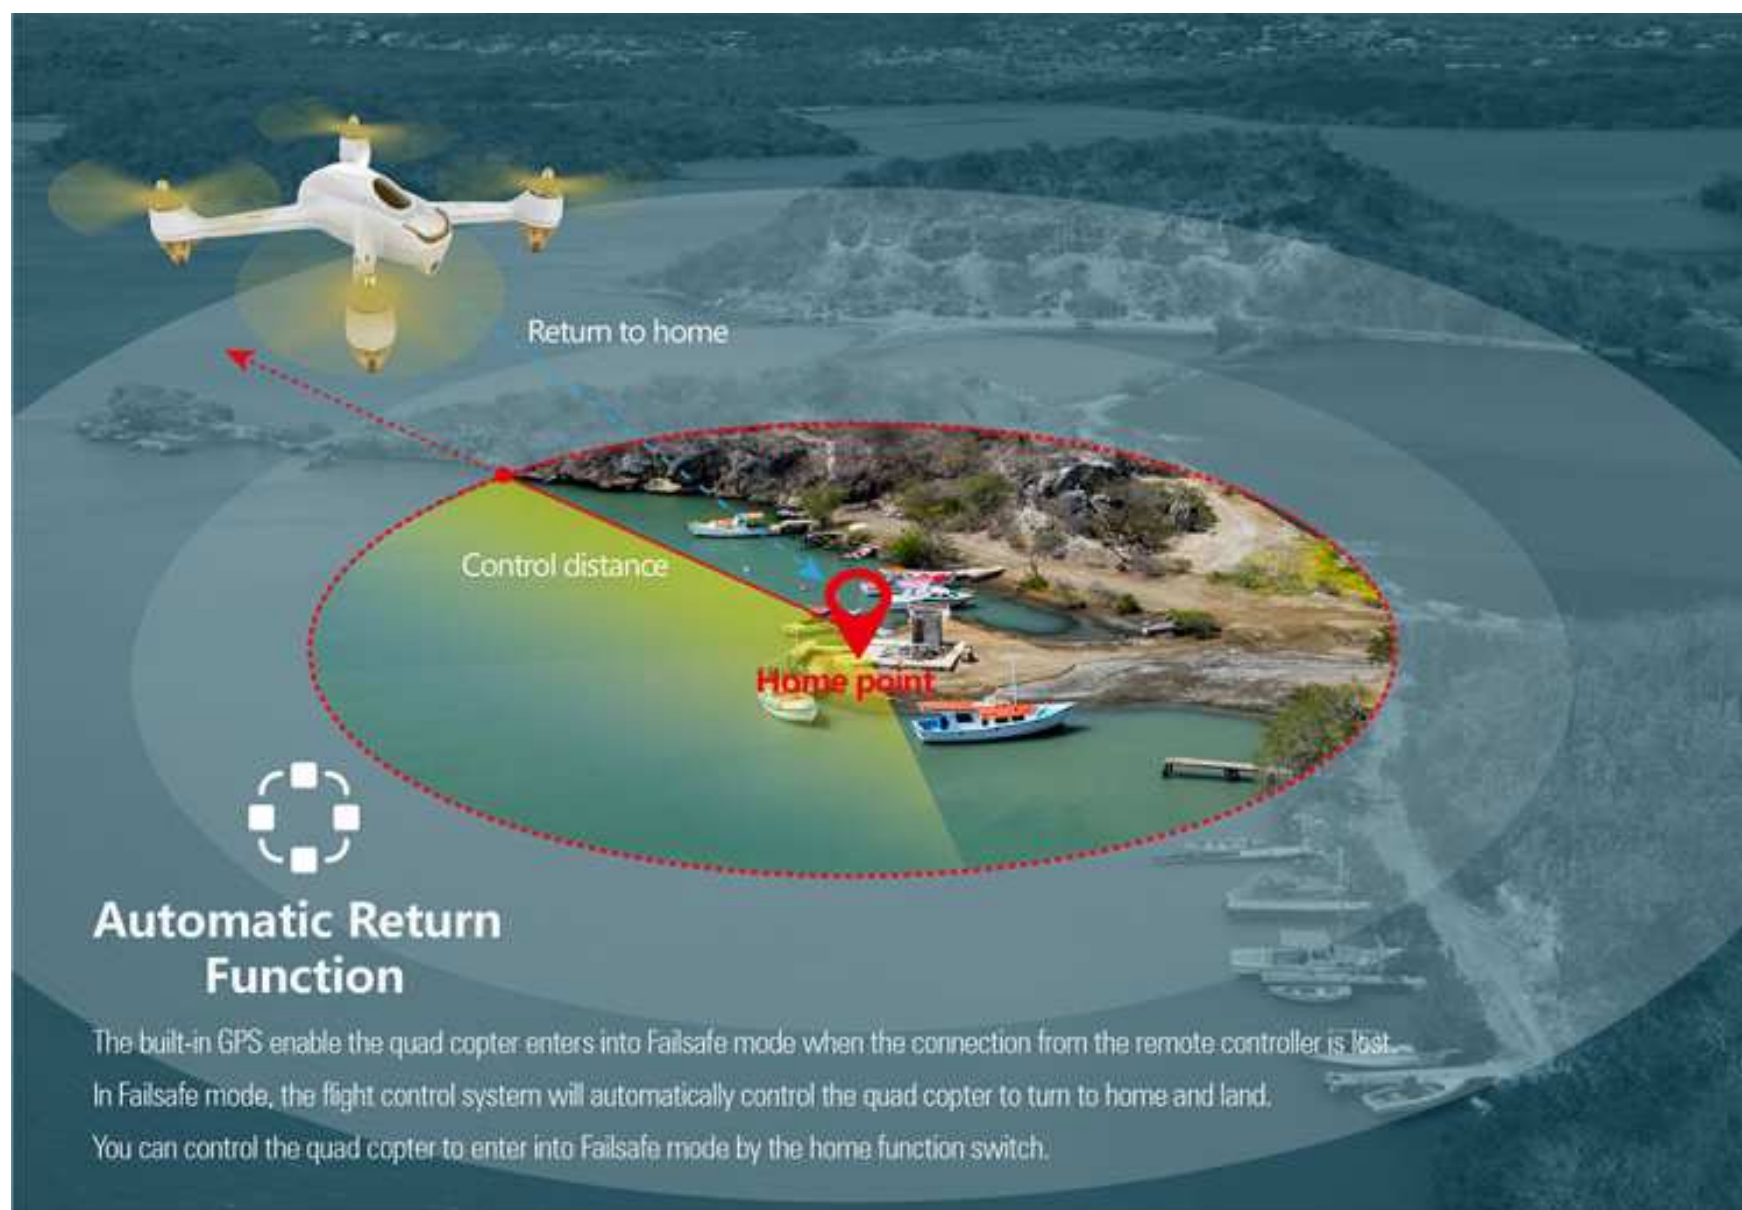

Headless Mode

When enters into headless mode, the controls will be set to one direction based on the quad copter's current path.

1080P HD Camera

The built in HD camera are tuned amazingly to capture stunning pictures and videos from the skies.

The aerial live video and pictures give you a brand new view, shocking your mind.
