

## FPV 1280MHz 200mW Transmitter

Transmitter Spec.:

P/N: CS-B200TX

Weight: 15g

Dimension: 31\*24\*10mm

Working Voltage: DC 12V

Working Current: 80mA

Working Frequency: **1280MHz (locked)**

Working Channels: 1CH

Working Power: 200mW

Standard Packing List: 1x Tx; 1xRCA cable; 1x Antenna

### Note:

\* Above specifications is custom and locked on 1280MHz for FPV system. Plug and Play! You just need to set Receiver's channel on CH9.

\* The default transmitter has 4 channels (1240-1280-1320-1360 MHz) Compatible with our 12CH receiver.

Item	Channel	CH1	CH2	CH3	CH4
1.3GHz 200mW	Frequency	1240MHz	1280MHz	1320MHz	1360MHz

\* Below video Tx harness is optional and easy use for your FPV system.
