

# Velineon 3S

BRUSHLESS

Power System: Part 3441

Motor: Part 3442

ESC: Part 3446

## VX3 ESC Features

- Compatible with 2s–3s LiPo batteries only
- Three programmable drive profiles
  - Sport Mode - Forward / Brake / Reverse
  - Race Mode - Forward / Brake
  - Training Mode - 50% Forward / Brake / 50% Reverse
- Traxxas EZ-Set® push-button setup operates and programs just like other Traxxas speed controls
- Large heat sink with cooling fan included
- Real-time telemetry via Traxxas Link™
- High-Resolution Linear Braking
- Waterproof case design

## V3200 Motor Features

- Ultra high-temperature sintered Neodymium magnets provide massive torque and linear power
- 3200Kv optimized for power and efficiency in 1/10th scale vehicles
- 5mm output shaft
- Integrated cooling fan for consistent, high-power output, run after run
- Low-maintenance, unique Traxxas design
- Efficient, high-speed ball bearings
- Brilliant blue powder-coated finish

# TRAXXAS

Radio System: Part 6579-2CH  
Receiver: Part 6568-3CH  
Transmitter: Part 6505-2CH

# TQi SPORT

## RADIO SYSTEM

### 3-Channel Receiver Features

- Traxxas Stability Management
- Model memory stores up to 30 transmitters
- Built-in failsafe returns throttle to neutral in the event of signal loss
- Built in telemetry and inclinometer (requires TQi transmitter)
- Compatible with all TQi and TQi Sport transmitters

### Transmitter Features

- New compact design for easy portability
- Comfortable ergonomic grip with removable adapter for adjustability
- High-output 2.4GHz signal for maximum range
- Compatible with all current 2.4GHz receivers
- Integrated internal antenna
- Steering trim knob
- Simple one-button interface:
  - Turn TSM on or off
  - Servo Reversing
  - Activate Self-Righting on equipped models
- Uses 4 AA batteries
